

FAMILY STABILIZATION/RESPITE CARE

Respite services are for boys who require time out from home, foster care or other place of residence. This program can either provide planned respite or provide a short-term placement during times of situational turmoil. While offering structure around the clock, emphasis is placed on enhancing coping skills and on improving present daily functioning. Intensive family work focuses on communication and problem solving within the family. The program is flexible and can be tailored to the individual needs of

boys and their families. Length of stay is

usually between 1-14 days.

Together We Can Achieve

Goals of Family Stabilization/Respite Care:

- To stabilize behavior while providing a corrective learning experience
- To provide a neutral setting for individuals and their families
- To provide containment without major disruption to an individual's school, work or family obligations
- To allow the individual, family and current service providers an opportunity to develop appropriate interventions in the community

Special Features of Family Stabilization/Respite Care:

- Length of stay can be individually tailored
- Clinical, residential, educational, case management and medical services
- 24-hour admissions capability
- State-of-the-art, non-institutional campus facility
- Intervention strategies designed to resolve problematic behaviors or conflicts that necessitated placement
- Intensive treatment using a multi-disciplinary approach with emphasis on safety
